DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Invention II, i.e. claims 15-24, in Paper No. 8 is acknowledged. Claims 1-14, directed to Invention I, have been canceled.

During a phone interview, on June 25, 2003, with Mr. Suneel Arora, he elected the Species I, i.e. Figure 3. Also, he believes claims 15-20 and 22 are readable on the elected Species. The examiner agrees with Mr. Arora. The election of species was not traverse, thus it has been treated as an election without traverse.

Claims 21, 23, and 24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8 and interview on June 25, 2003 (see "Interview Summary" attached hereto).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-20 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Ferrara (U.S. Patent 4,809,694 cited on PTO-1449).

Ferrara discloses a method of immobilizing an instrument comprising, providing a material, e.g. 14, having a passage 16; introducing an instrument, e.g. 18, into the passage; and reducing an effective area of the material around the instrument to immobilize the instrument (see Figure 4, and col. 4, line 66, through col. 5, line 14). The method of claims 16-20 and 22 are also disclosed or inherent in Ferrara.

Applicant is reminded that an anticipation under 35 U.S.C. 102(b) or 102(e) is established when a single prior art reference discloses, either expressly or under principles of inherency, each and every element of a claimed invention. *RCA Corp. v. Applied Digital Data System, Inc.*, 730 F.2d 1440, 221 USPQ 385 (Fed. Cir. 1984). Furthermore, it is well settled that the law of anticipation does not require that the reference teach what appellant is teaching or has disclosed, but only that the claims on appeal "read on" something disclosed in the reference, i.e. all limitations of the claims are found in the reference. *Kalman v. Kimberly Clark Corp.*, 713 F.2d 760, 218 USPQ 781 (Fed. Cir. 1983). Moreover, it is not necessary for the applied reference to expressly disclose or describe a particular element or limitation of a rejected claim word for word as in the rejected claim so long as the reference inherently discloses that element or limitation. *Standard Havens Products Inc. v. Gencor Industries Inc.*, 953 F.2d 1360, 21 USPQ 2d 1321 (Fed. Cir. 1991).
